

### How to improve organisation using Layout Planning

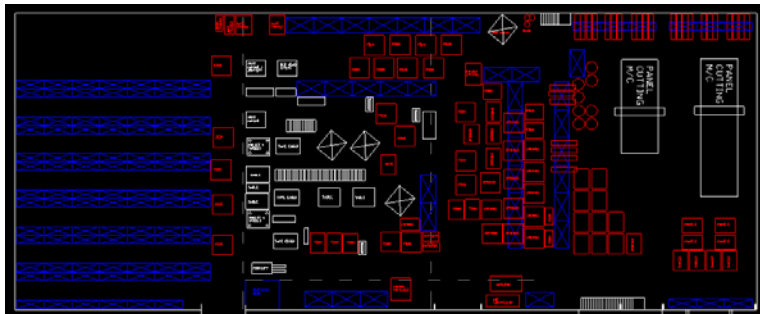

Are you struggling to work out how you can improve your organisational layout in your Business? Vative's Layout Planning techniques allow you to make the most of your valuable space and streamline your processes. Our team have extensive experience in layout planning and reconfiguration to maximise workplace organisation and workflow. We optimise processes by best positioning equipment and resources to enhance customer requirements and workflow in the shortest lead time and at the highest quality.

Layout Planning provides:

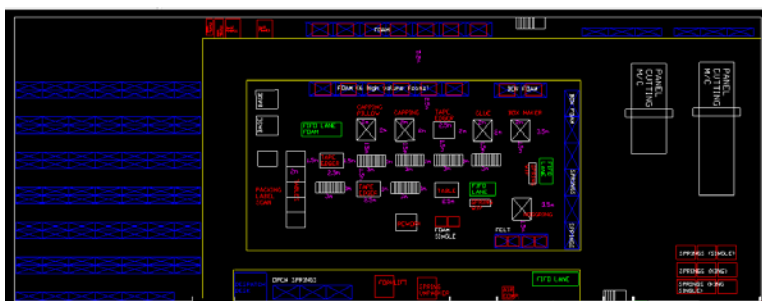

- A defined location for all equipment , inventory and service access
- Optimise flow patterns for high volume processes
- Graphical representation for easier planning
- Flexibility on Layout for strategic changes
- Clarity for potential changes in the design phase
- Improves workplace ergonomics for staff and assists in 5S
- Ensures workplace meets Occupational Health and Safety requirements
- Improved organisation that encourages workplace efficiencies for all employees

Improved organisation using Layout Planning. 'visualise your plans , so teams can make them reality'.

#### BEFORE

#### AFTER
